

SAFETY DATA SHEET

HORELEX RUST REMOVER

Product Description

Horelex Rust Remover is a free flowing liquid preparation for removing rust from ferrous metals. Based on phosphoric acid, speciality detergents together with inhibitors and synergists. It is both fast and effective.

Directions

Use pvc or latex gloves when handling and polythene or other plastic resistant containers. Pour sufficient Horelex into a shallow tray to cover the component. This should be left for about ten minutes or longer if the part is very rusted. Remove and rinse in clean water. Dry quickly and thoroughly to prevent further oxidation.

SECTION 1 : Identification of the substance / mixture and of the company/undertaking

1.1 Product Identifier

| | |
|----------------------------|--------------------------------|
| Product Name: | Horelex Rust Remover |
| Composition / Ingredients: | Based on Phosphoric Acid 5-25% |
| Tariff No : | 28092000 |
| CAS No. | 7664-38-2 |
| EC No. | 231-633-2 |

1.2 Relevant identified uses of the substance or mixture and uses advised against

Metal surface treatment for dissolving rust from ferrous metals. No uses advised against.

1.3 Details of the supplier of the safety data sheet

| | |
|----------------|--|
| Company Name : | Horological Solvents Ltd Barnside, 194 Wellington Road, Bury, Lancs. BL9 9AH |
| Tel: | 0161 764 2741 |
| Fax : | 0161 764 8696 |
| Email : | horological@restoration-materials.co.uk |

1.4 Emergency telephone number

Emergency Tel : 0161 764 2741 (office hours only)

SECTION 2 : Hazards Identification

2.1 Classifications of the substance or mixture

According to 1272/2008

GHS05 corrosion

Skin Corr. 1B H314 Causes severe skin burns and eye damage
Environmental Hazards : Not classified.

2.2 Label elements According to 1272/2008

DANGER

GHS05

Hazard Statements

H314 Causes severe skin burns and eye damage

H290 May be corrosive to metals

Precautionary Statements

P260 Do not breathe dust / fume / gas / mist / vapours / spray.

P280 Wear protective gloves / protective clothing / eye protection / face protection

P301 + P330 + P331 IF SWALLOWED : rinse mouth. Do NOT induce vomiting

P303 + P361 + P353 IF ON SKIN (or hair) Take off immediately all contaminated clothing.

Rinse skin with water / shower.

P304 + P340 IF INHALED : Remove person to fresh air and keep at rest in a position comfortable for breathing.

P305 + P351 + P338. IF IN EYES : Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P405 Store locked up.

SECTION 3 : Composition/information on ingredients

3.2 Hazardous Ingredients

| Material | CAS number | Level | Hazards | See Section 2 |
|----------------------|------------|-------|--------------|---------------|
| Orthophosphoric Acid | 7664-38-2 | 5-25% | Skin Corr. 1 | H314 |

SECTION 4 : First Aid Measures

4.1 Description of first aid measures

Skin Contact : Remove contaminated clothing, wash skin with soap and water. Seek medical attention immediately.

Eye Contact : Immediately flush eyes with water, holding eyelids apart for at least 10 minutes. Seek medical assistance immediately.

Ingestion : Do not induce vomiting. If conscious, give water to drink. Seek medical assistance immediately.

Inhalation : If irritation occurs, remove to fresh air, keep warm and at rest, seek medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

Skin Contact : Causes severe burns

Eye Contact : Will cause severe damage

Respiratory Hazard : Not a hazard in normal use. Breathing spray mist may cause irritation.

4.3 Indication of any immediate medical attention and special treatment needed

Medical supervision for at least 48 hours.

SECTION 5 : Fire-fighting measures

Flammability hazard : Not combustible.

5.1 Extinguishing Media

No special requirements. As appropriate for the fire.

5.2 Special hazards arising from the substance or mixture

In case of fire, the following can be released : Phosphorus Oxides (e.g. P205)

5.3 Advice for fire-fighters

Wear self contained respiratory protection. Wear fully protective suit.

SECTION 6 : Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Take precautions to avoid contact. Use PPE as detailed in Section 8

Spillage may make floors slippery. Keep the area clear. Observe regulations.

6.2 Environmental precautions

Prevent spills from entering water courses.

6.3 Methods of material for containment and cleaning up

Small quantities, flush to foul sewer with a large quantity of water.

Large quantities, contain and absorb or pump into suitable containers for disposal.

6.4 Reference to other sections

Reference to other sections : Refer to section 8 and 13 of SDS.

SECTION 7 : Handling and Storage

7.1 Precautions for safe handling

Keep receptacles tightly sealed.

Ensure good ventilation/exhaustion at the workplace.

When diluting always pour product into water and not vice versa

Information about fire – and explosion protection : No special measures required.

7.2 Conditions for safe storage, including any inculpabilities

Store in a cool, dry place protected from frost and away from alkalis and strong oxidising agents. Store upright in original containers.

Recommended storage temperature – 5 – 25°C

7.3 Specific end use(s)

Specific end use(s) : Metal surface treatment. Removes rust from ferrous metals.

SECTION 8 : Exposure controls / personal protection

8.1 Control parameters

Orthophosphoric Acid 1mg/m³ WEL 8 hour TWA (UK EH40)

8.2 Exposure controls

These measures are suggested on the basis of general use methods and may not be appropriate to all potential uses of the product. The user is responsible for carrying out a full risk assessment of their specific processes and systems of work.

Respiratory protection : Not applicable.

Hand Protection : Wear pvc or latex gloves. Exact choice of glove depends on specific risk assessments.

Eye Protection : Wear a full face visor to BS EN 166 39B

Skin Protection : As necessary to prevent contact.

Environmental Protection : Prevent mixture from entering water courses.

SECTION 9 : Physical and chemical properties

9.1 Information on basic physical and chemical properties

| | |
|-------------------------------|-------------------------------------|
| Appearance : | Colourless Liquid |
| Odour : | Mild, characteristic |
| Solubility in water : | Miscible with water |
| Viscosity : | @ 20 °C 1.1 – 600 mPA.s (5% - 105%) |
| Boiling point / Boiling Range | 108 - 171 °C (50-93%, 1013 hPa) |
| Melting point / Melting Range | -18 + 27 °C (75-93% EC A.1) |
| pH -value : | (23 g/l) @ 20 °C <1 |
| Flash Point : | Not applicable |
| Oxidising Properties : | Not applicable |
| Relative density : | @ 20°C (typical) : 1.290 |
| Vapour density : | @ 20°C : 3.4 (air=1) |
| Vapour pressure : | @ 20 °C : 4 Pa |
| Flammability (solid,gaseous) | Product is not flammable |
| Ignition temperature : | Not applicable |

SECTION 10 : Stability and reactivity

10.1 Reactivity

Reactivity : Incompatible with strong oxidising agents and alkalis.
Corrosive action on metals.

10.2 Chemical stability

Chemical stability : Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions : No hazardous reactions are expected to occur.

10.4 Conditions to avoid

Conditions to avoid : Extremes of temperature.

10.5 Incompatible materials

Materials to avoid : Incompatible with strong oxidising agents and alkalis.

10.6 Hazardous decomposition products

Haz. decomp. Products : Oxides of phosphorus if heated. P205

SECTION 11 : Toxicological information

11.1 Information on toxicological effects

Acute toxicity : Based on available data, the classification criteria are not met.
Skin Corrosion / irritation : Mixture is classified as Skin Corr. 1B (see section 2)
Serious eye damage / irritation : Mixture is classified as Eye Dam. 1. (see section 2)
Respiratory or skin sensitisation : Does not contain any ingredients classified as sensitising.
Carcinogenicity : does not contain any ingredients classified as carcinogenic.
Reproductive toxicity : does not contain any ingredients classified as toxic for reproduction.

Symptoms / routes of exposure

Skin Contact : Causes severe burns.
Eye Contact : Will cause severe damage.
Ingestion : Moderate toxicity, will cause irritation and damage to gastro-intestinal tract due to Acidity.
Inhalation : Not a hazard in normal use.

SECTION 12 : Ecological Information

12.1 Toxicity

May effect aquatic organisms due to low pH if released into water course untreated.

12.2 Persistence and degradability

No classified as dangerous for the environment / aquatic toxicant.

12.3 Bio accumulative potential

Not expected to bioaccumulate.

12.4 Mobility in soil

This product has high water solubility.

12.5 Results of PBT and vPvB assessment

Contains no ingredients classified as PBT or vPvB.

12.6 Other adverse effects

No other adverse effects are anticipated.

SECTION 13 : Disposal considerations

13.1 Waste treatment methods

Process effluent can normally be discharged to foul sewer (subject to consent limits).
Large quantities, dispose via a licensed chemical waste contractor.
Empty cleaned containers can be recycled where facilities exist or sent for landfill or incineration if permitted.

SECTION 14 : Transport information

DOT Regulations

14.1 UN number : 1805

14.2 UN proper shipping name : Orthophosphoric Acid

14.3 Transport hazard class(es) : 8

14.4 Packing Group : III

14.5 Environmental hazards : Not classified as environmentally hazardous for transport

SECTION 15 : Regulatory Information

15.1 Safety, health and environmental regulations / legislation specific for the substance or mixture

Contents according to (EC) regulation No. 648/2004 on detergents.

15.2 Chemical Safety Assessment

Chemical Safety Assessment : A chemical safety assessment has not been carried out for the substance or the mixture by the supplier.

SECTION 16 : Other Information

Other Information : This safety data sheet is prepared in accordance with Commission Regulation (EU) No 2015/830

H314 : Causes severe skin burns and eye damage

H290 : May be corrosive to metals.

Legal Disclaimer : The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.
